

Tiny trinkets for imaginative play!

Dear Media,

As families gather together this holiday season, Think-a-lot Toys is introducing the perfect game to entertain kids of all ages. Think-ets is the world's first little game in a pouch containing tiny treasures from all over the world. Think-ets is a game featuring an assortment of 15 collectible miniature trinkets that can be used to create games and provide hours of entertainment and fun.

Using these tiny treasures children, adults and families can enjoy the holiday season together by playing games such as "What's Missing?" "What's Your Story?" or "What's Moved?" What's more, kids can play Think-ets while they wait while their parents shop, or in a restaurant while they wait for their food during family dinners.

Since no two Think-ets games are the same kids can try and collect all the playing pieces! In addition to fun, playing with Think-ets can exercise the brain by improving memory, logical thinking and creative imagination.

The games that can be used with Think-ets can be played with two or more people and are appropriate for ages 8 – 108! Think-ets are available at specialty toy and game retailers across the country and at [www.think-a-lot.com](http://www.think-a-lot.com) for approximately \$12.99.

If you would like to receive images or samples of Think-ets, please contact me at (310) 641-1556 or at [lisa@mckendall.com](mailto:lisa@mckendall.com).

Sincerely,

Lisa McKendall  
On behalf of Think-ets
